Submission t

Today is June 3rd 2026.

Verification Scores

V_AGENTZERO(T)	0.9700
GATE (>= 0.95)	PASS
C_GRADED	9.5833
CONSENSUS BAND	A — Verified Consensus

Agent Zero Rationale

The claim that today is June 3rd, 2026 exactly matches the system clock ground truth (2026-06-03), making it a verified temporal fact.

Ring of 12 — Independent Grades

#	Perspective	Grade	Rationale
G01	Empirical Evidence	10.0	The claim exactly matches the verified temporal ground truth of 2026-06-03.

G02	Logical Consistency	9.5	The claim matches the temporal ground truth exactly (2026-06-03), making it logically consistent with the authoritative system clock.
G03	Source Reliability	9.5	The claimed date matches the verified system clock (2026-06-03), so the factual content is correct, though no source is cited.
G04	Historical Context	9.5	The claim matches the Temporal Ground Truth exactly (2026-06-03), confirming June 3rd, 2026 as the current date.
G05	Counterfactual Stress Test	9.5	The claim matches the temporal ground truth exactly (2026-06-03), so it is fully verified against the authoritative system clock.
G06	Statistical Plausibility	10.0	The claimed date of June 3rd, 2026 exactly matches the verified temporal ground truth.
G07	Legal & Procedural	9.5	The claimed date of June 3rd, 2026 exactly matches the verified system clock temporal ground truth.
G08	Scientific Method	9.5	The claim matches the temporal ground truth exactly (2026-06-03), making it empirically verified by the authoritative system clock.
G09	Linguistic Precision	9.5	The claim 'Today is June 3rd 2026' precisely matches the temporal ground truth of 2026-06-03, with no linguistic ambiguity or imprecision.
G10	Bias & Framing	9.5	The claim matches the temporal ground truth exactly (2026-06-03), though no source is specified for the framing context.
G11	Temporal Accuracy	9.5	The claim that today is June 3rd, 2026 exactly matches the Temporal Ground Truth (2026-06-03).
G12	Operational Verifiability	9.5	The claim matches the Temporal Ground Truth exactly (2026-06-03), making it operationally verifiable against the authoritative system clock.
